The **Mycelium Market** was valued at USD 3.52 billion in 2025 and is expected to reach USD 6.72 billion by 2033, growing at a robust CAGR of 8.45% between 2026 and 2033, driven by rising demand for sustainable and eco-friendly materials across multiple industries.

The **U.S. Mycelium Market** is projected to grow from USD 0.66 billion in 2025 to USD 1.13 billion by 2033, at a CAGR of 6.96%. Growth is driven by increasing adoption of sustainable packaging, leather alternatives, innovative food ingredients, corporate sustainability initiatives, and expanding online retail and industrial supplier networks. Rising consumer awareness of eco-friendly and biodegradable products is further fueling demand, while technological advancements in mycelium processing are improving product quality and scalability. Additionally, supportive government regulations and incentives for sustainable materials are encouraging investment and commercialization. The expanding applications of mycelium in construction, textiles, and automotive sectors are also expected to create new opportunities for market growth.
